Lanotec Australia Pty Ltd
1317 Ipswich Road
Rocklea QLD 4106

Dear Richard,

I would like to take this opportunity to thank you and your Company for making your product "Lanotec" available to our business.

We use your product for a range of different applications. We have found it to be excellent when used as an anti-seize agent and rust protector for Chain and Wire Rope Slings. Overall, your product is very user friendly, of a high quality, but most of all, reliable.

As manufacturers of wire and chain sling sets for the Australian Offshore Oil Industry, our sling sets are sent out to a harsh environment and exposed to the elements on a daily basis.

From the moment we began using Lanotec to coat our slings, we have noticed a definite improvement in the condition of the slings when they are returned to us for re-test. We can only assume, and are happy to, that this is the result of your using your product.

We have also found Lanotec to be useful in the servicing of other lifting components such as Chain Blocks and Lever Hoists. It ensures that the chains and all moving parts are protected from corrosion, which in turn is extending their life span.

We congratulate you on providing such a reliable and safe product, and look forward to a long and rewarding association with your Company.

Yours faithfully,

Brayd Gross
Director
