Dear Sir

RE: USE OF LANOTEC ON OUR KEYLESS ELECTRONIC LOCKER SYSTEM

After many exhaustive tests on a variety of different products including Lanotec to ensure that our keyless locker system stood up to the harsh environments of indoor swimming pools and saltwater areas. We are pleased to report that the product Lanotec is now exclusively used on all our equipment right from the electronic boards through to preventing electrolysis and rust.

Lanotec has been a fantastic solution to our problems in this environment and I have no hesitation I recommending this product for the purpose set out in this letter.

Yours sincerely

A handwritten signature in blue ink, appearing to read "R. Yan", written over a faint, illegible stamp.
